HTML

HTML tags help you **identify** content

The diagram consists of a large light gray rectangle with a thin gray border. Inside this rectangle, there are three lines of text, each followed by a colored arrow pointing to the left. The first line is "some text content.." followed by a blue arrow containing the text "h1". The second line is "some other content.." followed by a yellow arrow containing the text "h2". The third line is "some third content.." followed by a green arrow containing the text "p".
